SUMMARY

Product manager and former digital design and creative technology leader with 20 years of experience connecting UX, engineering, content operations, and product strategy in healthcare technology. Known for turning ambiguous platform and workflow needs into clear requirements, practical roadmaps, prototypes, and delivery-ready stories. Strengths include content platform strategy, stakeholder alignment, AI-assisted product discovery, and bridging design-minded problem solving with technical delivery.

CORE STRENGTHS

Product Leadership: Product strategy, roadmap input, backlog ownership, Agile/Scrum, stakeholder alignment, requirements definition.

AI-Assisted Product Workflows: AI-supported discovery, requirements drafting, prototype scaffolding, workflow concepts, and stakeholder demos.

Content Platform Strategy: Content Warehouse, content services/APIs, editorial workflows, digital asset management, channel creation and distribution.

UX & Cross-Functional Communication: User-centered design, interactive prototypes, process maps, story writing, acceptance criteria, and executive-ready artifacts.

EXPERIENCE

Product Manager | PatientPoint®

May 2024 – May 2026 · Cincinnati, OH · Hybrid

- Owned product strategy and backlog for internal content platforms spanning Content Warehouse workflows, content services/APIs, channel creation, and product integrations, improving shared prioritization and reducing ambiguity across product, engineering, creative, and operations teams.
- Drove discovery and roadmap prioritization for platform upgrades, legacy product relaunches, and acquired product integration work by translating stakeholder needs into epics, user stories, acceptance criteria, workflow diagrams, and decision-ready artifacts.
- Created AI-assisted prototypes and product artifacts, including Channel Builder and trusted-source fact-checking/workflow concepts, helping stakeholders evaluate ideas earlier and move from broad problem statements to practical product direction faster.
- Championed a stronger product operations model with clearer platform ownership, stakeholder visibility, and scalable content governance across editorial and sponsored content workflows.

Technical Product Manager | PatientPoint®

May 2022 – May 2024 · Cincinnati, OH · Hybrid

- Owned requirements and story readiness for internal software supporting content warehouse workflows, content delivery pipelines, content search/distribution needs, automation, and internal workflow tools.
- Connected stakeholder goals to technical platform outcomes by documenting product needs, mapping cross-team dependencies, and aligning engineering work with operational impact.
- Supported modernization of interactive and passive digital product experiences by balancing legacy product continuity, go-forward content services, Content API needs, migration concerns, and delivery constraints.

Senior Director of Technology | PatientPoint®

Feb 2021 – May 2022 · Cincinnati, OH · Hybrid

- Led technology and operational teams through transition into the engineering organization, including QA responsibilities, digital asset deployment practices, and process improvements for more reliable delivery.
- Managed and transitioned a team of six direct reports into a more sustainable operational model while continuing to support product, creative, and engineering initiatives.

Creative Technology Director | PatientPoint®

May 2018 – Feb 2021 · Cincinnati, OH · Hybrid

- Led and matured the ad development team, improving team practices, delivery processes, and collaboration across creative, product, and engineering.
- Contributed to the launch of a Drupal-based Content Warehouse that centralized and modernized content management workflows for internal teams.
- Helped sustain team health, productivity, and delivery quality through the transition to remote work.

UX / Digital Project Lead | PatientPoint®

May 2015 – May 2018 · Cincinnati, OH

- Managed interactive ad development and front-end feature work for interactive and dynamic editorial content across digital product experiences.
- Partnered with product and engineering on the redesign and relaunch of the Interactive Exam Room experience, aligning UX, product goals, and technical delivery.
- Supported a company-wide replatforming and redesign of digital signage products, including widescreen layouts and expanded audio-based content support.

User Experience Designer / Developer | PatientPoint®

May 2013 – May 2015 · Cincinnati, OH

- Helped design and implement PracticeWire and Interactive Exam Room products as a UX designer, front-end developer, and informal product lead.
- Contributed to multiple versions of interactive product experiences, including iPad and wall-mounted form factors.

Senior Digital Designer / Digital Designer | PatientPoint®

Mar 2006 – May 2013 · Cincinnati, OH

- Designed and built dynamic digital content features that enabled local data to influence on-device calls to action, phone numbers, and visual content.
- Created Flash animations, sponsorship spots, reusable content slots, and early interactive/dynamic content features for digital signage products.

Freelance Digital Designer | Marco Polo Explorers

2003 – 2007 · Cincinnati, OH · Freelance

- Produced innovation visualization outputs, website/blog design, and book promotional digital materials.

EDUCATION

BS Design, Digital Design — University of Cincinnati, College of Design, Architecture, Art, and Planning (DAAP)

2000 – 2005 · Foundation in digital design, visual communication, user-centered problem solving, front-end development, and product thinking.

CERTIFICATIONS

Certified Scrum Product Owner® (CSPO®) · Scrum Alliance · Issued Mar 2024

Leading without Formal Authority · LinkedIn Learning · Issued Aug 2022
